

ATLAS PACKAGING PRODUCT GUIDE

 **ATLAS**
PACKAGING
An Inteplast Group Company

OUR HISTORY

Established in 1969, Atlas Packaging Inc. has dedicated more than 50 years to manufacturing a wide range of paper bags along with a large selection of sheeted products, rolled paper products, and napkins.

On June 17, 2022, our company joined Inteplast Group. Our more than 50 years serving supermarket, food service, processor, and distribution networks complement Inteplast Group's leading manufacturing presence in these markets and beyond. We continue to aggressively dedicate our resources to employ the most up-to-date technology and personnel available within the industry. From our state-of-the-art manufacturing facilities in both Canada and abroad, we offer a true, value-added business partnership to our clients. Our history and expertise allows us to meet the demanding standards of the North American market.

On top of our product being manufactured in Canada, we comply with SQF Level 2 standards and requirements as laid out by agencies such as the FDA, USDA, CFIA, and the Kosher Council of North America.

GENERAL INFORMATION

ORDERING INFORMATION - TERMS AND CONDITIONS

Terms:

Our regular payment terms are net 30 days. All sales are invoiced at price prevailing at time of shipment. Terms are subject to change.

Return:

No merchandise may be returned without proper authorization by Atlas Packaging Inc. A 15% restocking charge will apply and the return freight must be pre paid by the customer. Transport claims for damaged or missing products must be made within 30 days, otherwise the claim cannot be honoured. Custom printed products are final sale.

Pallets:

Atlas Packaging ships on CHEP pallets (40" x 48") and on non-returnable skids. Please ensure to exchange the CHEP pallets. Maximum pallet height is 48 inches.

GRAPHICS INFORMATION – CUSTOMER CHARGES AND CHANGES

Custom Orders:

Custom prints and/or special sizes are quoted upon request. Artwork and plates charges are extra and include one (1) revision. Extra revisions or new artwork creations are subject to additional fees.

Artwork Plate Proofs:

Once the artwork is approved, an artwork and plate charge cost will be quoted to you by customer service. Inactive artwork and plates will be disposed of after three (3) years. Atlas Packaging Inc. works with Adobe Illustrator & Photoshop.

Materials:

For custom orders, quantities are subject to over or under run quantities +/- 10%, thereby, exact manufactured and shipped quantities cannot be guaranteed.

BREAD BAGS

Keep your bread fresh, protected, and beautifully presented with our high-quality Bread Bags.

Choose between Non-window Bread Bags for durability and breathability, or Window Bread Bags to showcase your freshly baked artisan loaves.

Both options are customizable with printing, sizes, and paper types to suit your needs. Ensure your baked goods stay soft, tasty, and visually appealing with our versatile Bread Bags.

FOIL BAGS & BBQ BAGS

Foil-laminated insulated bags keep your food warm, fresh, and protected.

BBQ Bags are great for hot or cold items, perfect for catering or takeout. Hot Dog Bags maintain warmth with their foil lining, while Garlic Bread Bags are moisture-resistant to keep bread flavorful.

All bags can be customized in size, paper type, and printing options.

For products that need extra protection from moisture and grease, our Wet Waxed Paper is the ideal choice. It provides a strong, waterproof barrier that may be used for wrapping meats, cheeses, and other perishables.

GREASEPROOF LINERS

Our Greaseproof Liners, including Basket Liners and Pizza Liners, are perfect for both commercial and home use.

These liners are grease-resistant and durable, keeping serving baskets clean and providing an attractive presentation for food items like fries, burgers, and more. They also provide a moisture-resistant barrier that prevents pizza from sticking to the box or other packaging, ensuring a crisp crust.

Custom printing, sizes, and paper types are available to meet your specific needs.

BAKING PAN LINERS

Our Bakers Choice™ Pan Liners, including Silicone, Ecobake Silicone, and Quilon Pan Liners, offer excellent non-stick solutions for baking, ensuring that food won't stick to the pan.

These liners provide even heat distribution and are easy to clean, making them a cost-effective and eco-friendly choice. They are greaseproof, waterproof, and non-absorbent, eliminating the need for oil, sprays, and grease. Available in custom sizes, they can withstand various temperatures and come in a dispenser box to reduce clutter.

They are suitable for both commercial and residential baking, providing a clean, professional aesthetic while preserving the quality of your baked goods.

BAKERS CHOICE™ QUILON PAN LINERS

MATERIAL DESCRIPTIONS

DRY WAX

The wax is intertwined into the paper and leaves very little wax on the surface. Dry waxing is best used for hot products like hot dogs, hamburgers, tray lining, or fast food basket liners, etc.

WET WAX

This type of waxing is when the majority of the wax remains on the top of the sheet which makes the surface of the sheet wet or very waxy. Wet waxed sheets and rolls can be used anywhere where heat is not an issue like cold cuts, meats, pastries, sandwiches and frozen foods. The weights can vary from 3-20 pounds of wax, depending on the application requirement.

GREASEPROOF

A treated paper that offers superior resistance to oil and grease. Our greaseproof materials are PFAS free.

GUSSET

The side panel of a bag. Second measurement taken when sizing a bag

LAMINATE

Paper, Foil, or Film materials are bonded together to form a stronger material with improved barrier characteristics.

LAMINATING

The operation of combining two or more layers of material with an adhesive (paper/aluminium; paper/paper; paper/aluminium/poly.) to provided various barrier properties.

NATURAL KRAFT

Kraft paper is a paper produced from chemical pulp produced in the kraft process. Kraft pulp is darker than other wood pulps, but it can be bleached to make white pulp. Fully bleached kraft pulp is used to make high quality paper where strength, whiteness and resistance to yellowing are important.

NOTION BAGS

Any bag with an “edge” bottom that is heat sealed or glued.

RELEASE

A Release liner is a paper which is coated on one or two sides with a release agent, which provides a release effect against any type of a sticky foods. Release is separation of the liner from a sticky material. a liner is the carrier for the release agent.

ENVIRONMENTAL POLICY

As Atlas Packaging Inc. continues to service the North American marketplace, we continue to seek products and methods of production that will improve our sustainability as a company and as a good corporate and community citizen.

- Atlas Packaging Inc. is committed to conduct business and its operations in a manner that will reduce the impact on the environment by promoting sustainable development.
- We continuously communicate, train, and make aware all employees and management about the reduction of waste and its environmental effects.
- We have implemented working methods and procedures to preserve natural resources by better using raw materials and energy.
- We direct Atlas Packaging Inc. activities in a continuous improvement regarding the environment while respecting our company's interests, employees, customers, suppliers, and community.
- We monitor environmental performance and waste management on an ongoing weekly basis and collectively with the staff, bring corrective actions to any issues that may hinder our environmental policy.

BAG MEASUREMENTS

GENERAL

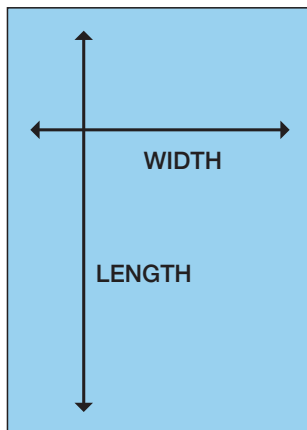

All bag dimensions always have WIDTH (the side that opens) as the first number.

FLAT BAGS

Side seal and bottom seal.

Dimensions: width x length

- The WIDTH is measured across the opening of the bag.
- The LENGTH is measured from the opening of the bag to its base.

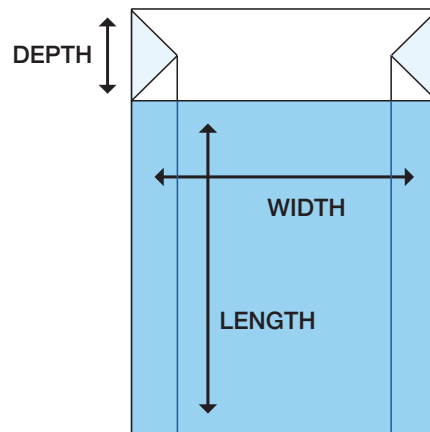

SIDE GUSSET BAGS

A gusset is a fold on the bag that gives added depth by creating expandable sides.

Dimensions: width x gusset x length

- The WIDTH is measured across the opening of the bag.
- The DEPTH is measured across the gusset (side) of the bag when the gusset is EXTENDED.
- The LENGTH is measured from the opening of the bag to its base.
